Run a huddle

10–15 minutes, once a week, beside the machine you'll use for the talk-through

BRING

The save downloaded to the tablet (don't stream it) · call cards for everyone · this week's sorting cards, or a flipchart or whiteboard · this week's huddle note · spare pocket cards. **When:** at shift start before the line runs, at a planned stop, or with the crew split in two so the line stays covered.

THE FOUR SAVES

All four end in Go. Question 4 is answered in the routine Go.

Save	When	Question that catches it	Call	Reason
1 **Solvent transfer**	**Before you start**	3 **Checked or assumed?**	FIX IT	A step in your procedure
2 **Roll staging**	**After a break**	1 **What's different?**	STOP & GET HELP	Not authorized: trained on the pallet truck, not the forklift
3 **Die cutter**	**Handover**	3 **Checked or assumed?**	STOP & GET HELP	Someone else's unfinished work
4 **Slitter knives**	**Change**	2 **What could hurt us?**	FIX IT	Your own PPE step

THE SIX STEPS

1. Recall	1.5 min	Ask the whole crew: **"When do we pause?" "What are the four questions?" "What are the three calls? When is it Fix it, and when is it Stop & get help?"** Let them fill gaps before you point to the job aid. First huddle: build the list together. From the third: **"Name a time you paused this week. Which trigger was it? Which question did the work?"**
2. Play the save	3–4 min	**"It will stop twice. Answer before it moves on."** Pause at **"What would make you stop here?"**: get two or three answers, don't say who's right. Pause at **"Your call?"**: **"On three, hold up your call."** Ask a volunteer from each answer why. Stop at the end of the chapter.
3. The reason and the twist	2 min	**"Why that call, and not the other one?"** Bring it back to the boundary rule and the reason in the note. Read the **twist** (one changed fact). Vote again; one volunteer says why.
4. Cards or our version	3 min	The save's note says which. **Cards:** three sorting cards; vote on each; for one card ask **"What one change would flip this call?" Our version:** the prompt in the note; pairs talk for 30 seconds; write Clue · Our call · Who we'd call · Action needed on the flipchart. Ask: **"What would make ours a Fix it, and what would make it Stop & get help?"**
5. Talk-through at the machine	3 min	A volunteer (rotate; own language, card in hand, or in pairs) talks through their two minutes: Stop, Look, Ask, Decide. Then: **"Now imagine you find this:"** and read the situation in the note. They stop and call. You answer: **"Thanks. What did you see?"** To everyone: **"At your station, do your two minutes before you start. I'll come by and ask one of you."**
6. Close	1.5 min	What changed since last time. **"Catch anything this week?"** Take one story. **"Who do you call on this shift? And if they don't answer?"** Thank the volunteer. Name the next save. Last huddle: **"In the next two weeks, some of you will be asked three quick questions, one to one. No names."**

WHEN PEOPLE MISS

- Stop & get help where it was Fix it: **"That's safe. When in doubt, get help. Here's why this one is in your procedure."**
- Go or Fix it where it was Stop & get help: walk through the boundary rule again, kindly.
- Go while something was still wrong: **"Checked or assumed?"** Go back to hold 1 and find the clue.
- "No permit yet" means Stop & get help. Hold the permit and the step is in it: it can be Fix it.

ONLY 10 MINUTES?

Recall 1.5 min · play the save with the reason in one line, no twist, 4 min · one card or one example 1.5 min · talk-through 2.5 min · close 0.5 min. **Never drop the talk-through.**

KEEP IT SAFE

Talk only: nobody touches controls, guards, valves, locks, clamps, knives or trucks. Use a stopped machine, or stand well back from a running one and don't distract whoever runs it. Never at a running slitter. In gowned areas: a station outside, or a photo. If someone spots something real, it's a real catch.

NEVER SAY · SAY INSTEAD

"Why is the line down?"	**"Thanks. What did you see?"**
"Just get it running." · "We're behind."	**"We'll sort this, then we run."**
"You could have fixed that yourself."	**"Thanks for checking."**
"Who left it like this?"	**"Let's find out what happened, and fix it."**
"That lamp's always red."	**"Let's check it."**

After the huddle (2 min): record attendance, copy the flipchart into the local examples log, pass on any catch today.

Awareness training only: it never replaces your procedures, permits or lockout. Full notes: facilitator guide, section 3.
