Badge cards (small print). Print at **Actual size (100%)** on 120–160 gsm paper or light card. Cut on the corner marks. Fold each pair on the dashed line, printed sides out. Laminate. Give these only as well as the pocket card.

The 2-Minute Rule

A short pause at the point of work

Before you start · After a break · Handover · Interruption · Change

STOP › LOOK › ASK › DECIDE

1. **What's different?** Anything new, changed, or not as planned?
2. **What could hurt us?** Moving parts, power, heat, sparks, solvents, heavy loads, potent product?
3. **Checked or assumed?** Checked means you saw or tested it yourself. Assumed means you're guessing.
4. **What if it goes wrong?** Where does it go? Who is in the way?

DECIDE Make one of three calls.

- **GO** — You found nothing wrong. Start the job.
- **FIX IT** — **Only if** you're trained and authorized, **and** it's a step in your procedure.
- **STOP & GET HELP** — **Hands off. Leave it as it is. Call your lead.** No permit yet? Someone else's unfinished work? Not authorized? The fix doesn't work? **When in doubt, get help.**

This rule adds to your procedures, permits, lockout and guards. It never replaces them.

Your lead

Days _____ **Radio or phone** _____

Nights _____ **No answer? Call** _____

Weekends _____ **Report catches to** _____
